

Hi, I'm Shayan, a mechanical engineer, and researcher. I am enthusiastic about fluid dynamics and turbulence. My main research interest is numerical simulation of turbulent flows and analysis of flow structures. On this website, you'll find information about my background and experiences. I also share some of my simulation results in terms of figures and animations. Thanks for visiting my website, and feel free to contact me in case of any questions or notes.

*"When I meet God, I am going to ask him two questions: Why relativity? And why turbulence? I really believe he will have an answer for the first."*

*Werner Heisenberg*
